

Energy Save is on site in Chile

Rodrigo Fuentes, and his partner Leonardo Aguilera take a bold step and explore the promising Chilean market by participating in the well-known technical fair Expo Frío Calor Chile, an international exhibition for air conditioning, heating, ventilation, cooling and hot water preparation, which takes place on the 7 -9 May 2024.

When Rodrigo Fuentes is asked about our systems, he says: "If it works in Sweden, it works all over the world". This philosophy summarizes the confidence in the quality and efficiency of our solutions, designed to exceed expectations in all climates and conditions.
